SALES TAX: Any applicable state sales tax will be determined after purchase and must be paid prior to shipping through PayPal by the buyer.

Product Description

Color: Stainless Steel

Grilling really can't get much easier than this. After assembling the grill (which takes only a few minutes), simply plug it in and allow about 10 minutes to fully preheat. The electric heat has an adjustable range from low (for keeping food warm) to high (for searing steaks). The nonstick grill surface has a subtle slope, with channels that draw accumulated fat or other liquids into a tray just below the grill. The minimum of added fat, but it also makes cleanup a cinch. The surface has a subtle slope, with channels that draw accumulated fat or other liquids into a tray just below the grill. The vented lid helps create a circular flow of hot air to ensure even cooking--particularly important for a large roast or whole chicken.

The grill can be placed either directly on a tabletop or atop its pedestal. On its own, the grill surface stands about 6 inches high; with the pedestal, it stands about 2-1/2 inches high. The pedestal is plenty sturdy for cooking, but the grill still seems a bit top-heavy, so pay special attention if grilling in a high-traffic area or near kids. Because cooking is done outdoors or indoors--when using it indoors, though, be prepared for potential spattering, steam, or other side effects of cooking. --Cynthia Nims
